

Proposal of Special Issue of the Journal, Applied Computing and Geosciences

Call for Papers:

Special Issue on Compositional Data Analysis (CoDaWork2019)

In consistency with the aims and scope of the Applied Computing and Geosciences journal, contributors of the CoDaWork2019 will be encouraged to prepare an extended paper for a Special issue (“Special Issue on Compositional Data Analysis (CoDaWork2019)”) of the Journal. Applied Computing and Geosciences is an Open Access journal. The normal fees of \$1500USD will be waived for this special issue.

Among the contributions to the CoDaWork2019, up to 8–10 papers will be reviewed and published in this special issue. Contributions will be submitted using the journal system ([Applied Computing and Geosciences journal](#)).

In addition to full length papers (not exceeding 5000words), we also encourage the submission of short articles. All submissions must contain original unpublished work not being considered for publication elsewhere.

We cordially invite you to submit your manuscript to this special issue. Please see the [Guidelines for Authors](#) located on the journal’s web page (<https://www.elsevier.com/journals/applied-computing-and-geosciences/2590-1974/guide-for-authors>) for further details.

Important Dates:

- Initial submission: **October 15th**, 2019
- Revision: November 30th, 2020
- Tentative Publication Date: January 2020
