

Papers in Referred Journals

1. Grau-Sánchez, Díaz-Barrero, J. L. “A technique to composite a modified Newton’s method for solving nonlinear equations”. *Analele Universității București* **2 (LX)**, No. 1, (2011), 53–61.
2. Díaz-Barrero, J. L. and Gibergans-Báguena, J. “Two applications of rearrangement inequality”. *Scipirea Mintii* **4**, No. 8, (2011), 10–12.
3. Palacios-Quiñonero, F., Rubió-Díaz, P.; Díaz-Barrero, J. L.; Rossell, J. M. “Order regularity for Birkhoff interpolation with lacunary polynomials”. *Math. Aeterna*, Vol. **1**, No. 3-4, (2011) 129–135.
4. Bencze, M., Bagdasar, O., Díaz-Barrero, J. L. “Blind men and hypercubes”. *Missouri J. Math. Sci.*, Vol. **23**, No. 1, (2011) 19–26.
5. J. L. Díaz-Barrero, J. J. Egozcue, P.G. Popescu. “Some results on the geometry of the zeros of polynomials”. *Proc. Rom. Acad. Ser. A Math. Phys. Tech. Sci. Inf. Sci.*, Vol. **12**, No. 1, (2011) 16–21.
6. Grau-Sánchez, Díaz-Barrero, J. L. “Zero-finder methods derived using Runge-Kutta techniques”. *Appl. Math. Comput.* **217**, No. 12, (2011), 5366-5376.
7. Grau-Sánchez, M., Noguera, M., Peris, J. M., Díaz-Barrero, J. L. “Chaotic behavior in a learning model”. *Nonlinear Anal. Real World Appl.* **11**, No. 1, (2010), 414-422.
8. S. H. Brown and J. L. Díaz-Barrero. “A brief note on the extension of new inequalities for the triangle”. *Foaie Matematica*, Vol. **10**, No. 1, (2010) 1–5.
9. J. L. Díaz-Barrero and M. Grau-Sánchez. “Cubic root inequality”. *The Fibonacci Quarterly*, Vol. **48**, No. 3, (2010) 280-281.
10. D. Mărghidanu, J. L. Díaz-Barrero and S. Rădulescu. “New refinements of some classical inequalities”. *Mathematical Inequalities & Applications*. Vol. **12**, No. 3, (2009) 513–518.

11. J. L. Díaz-Barrero. “On the distribution of the zeros of a complex polynomial”. *Analele Universității București*, Vol. **LVIII**, No. 1, (2009) 67–76.
12. M. Grau-Sánchez, Miquel Noguera and J. L. Díaz-Barrero. “Adams-like techniques for zero-finder methods”. *Applied Mathematics and Computation (New York)*, **211** (2009) 130–136.
13. M. Grau-Sánchez and J. L. Díaz-Barrero. “Some sixth order zero-finding variants of Chebyshev-Halley methods”. *Applied Mathematics and Computation (New York)*, **211** (2009) 108–110.
14. J. Rubió-Massegú and J. L. Díaz-Barrero. “Zero and Coefficient Inequalities for Polynomials”. *Appl. Anal. Discrete Math.*, Vol. **3**, No. 1, (2009) 69–77.
15. J. L. Díaz-Barrero. “Some Elementary Cyclical Inequalities”. *Minus*, Vol. **2**, No. 1, (2009) 4–6.
16. J. Gibergans-Bguena, J. J. Egozcue, and J. L. Díaz-Barrero, J. L. “Some cyclical inequalities in inner product spaces”. *Octagon Mathematical Magazine*, Vol. **17**, No. 2, (2009) 502–509.
17. Francisco Palacios-Quñonero, P. Rubió-Díaz and J. L. Díaz-Barrero. “Order Regularity of Two-Nodes Birkhoff Interpolation with Lacunary Polynomials”. *Applied Mathematics Letters*, Vol. **22** (2009) 386–389.
18. J. L. Díaz-Barrero, M. Grau-Sánchez and P. G. Popescu. “Refinements of Aczél, Popoviciu and Bellman’s inequalities”. *Computers & Mathematics with Applications*, Vol. **56**, No. 9, (2008) 2356–2359.
19. J. L. Díaz-Barrero and J. J. Egozcue and J. Gibergans-Báguena. “On the Ky Fan inequality and some of its applications”. *Computers & Mathematics with Applications*, Vol. **56**, No. 9, (2008) 2279–2284.
20. J. L. Díaz-Barrero. “Problem 11385”. *American Mathematical Monthly*, Vol. **115**, No. 8, (2008) 758–758.
21. J. L. Díaz-Barrero and J. J. Egozcue. “A Generalization of the Gauss-Lucas Theorem”. *Czechoslovak Mathematical Journal*, Vol. **58**, No. 2, (2008) 481–486.

22. M. Grau-Sánchez, M Noguera, J. L. Díaz-Barrero, V. D. Chamizo and T. Rodrigo. “An application of an associative learning model to a Morris pool with a single landmark”. *Computers & Mathematics with Applications*, Vol. **56**, No.1 (2008) 212–217.
23. J. J. Egozcue, V. Pawlowsky-Glahn and J. L. Díaz-Barrero. “Otros espacios Euclideos”. *La Gaceta de la Real Sociedad Matemática Española*, Vol. **11**, No. 2, (2008) 263–277.
24. J. L. Díaz-Barrero and J. Gibergans-Báguena. “Some Applications of Chebyshev’s Inequality”. *Foaie Matematica*, Vol. **9**, No. 1, (2008) 1–8.
25. J. L. Díaz-Barrero. “Problem 11339 A Fibonacci-Lucas Inequality”. *Amer. Math. Monthly*, Vol. **115**, No. 1 (2008) 72–72.
26. M. Grau-Sánchez and J. L. Díaz-Barrero. “A weighted variant family of Newton’s method with accelerated third-order convergence”. *Applied Mathematics and Computation (New York)*, Vol. **186**, No. 2 (2007) 1005–1009.
27. J. L. Díaz-Barrero, J. Gibergans-Báguena and P. G. Popescu. “Some identities involving rational sums”. *Appl. Anal. Discrete Math.*, Vol. **1**, No. 2, (2007) 397–402.
28. M. Grau-Sánchez and J. L. Díaz-Barrero. “A Hummel & Seebeck family of iterative methods with improved convergence and efficiency”. *Applied Mathematics and Computation (New York)*, Vol. **191**, No.1 (2007) 263–271.
29. J. L. Díaz-Barrero, J. Gibergans-Báguena and P. G. Popescu. “Inequalities Involving the Medians and the Area of a Triangle”. *Octogon Mathematical Magazine*, Vol. **15**, No. 2, (2007) 725–729.
30. J. L. Díaz-Barrero and J. Gibergans-Báguena. “A Method to obtain New Inequalities”. *Foaie Matematica*, Vol. **8**, No. 4, (2007) 1–6.
31. J. L. Díaz-Barrero. “Câteva Inegalități Pentru Tringhiurile Oarecare”. *Creatii Matematice. Seria A*, Vol. **2**, No. 2, (2007) 1–3.
32. J. L. Díaz-Barrero and P. G. Popescu. “Problem 11326 An Isoperimetric Inequality”. *Amer. Math. Monthly*, Vol. **114**, No. 8 (2007) 836–836.

33. J. L. Díaz-Barrero, P. G. Popescu, J. Grivaux and C. J. Hillar. “A Polynomial and its Zeros”. *Amer. Math. Monthly*, Vol. **114**, No. 7 (2007) 645–647.
34. J. L. Díaz-Barrero and M. Grau-Sánchez. “It Follows from Hölder”. *The Fibonacci Quarterly*, Vol. **45**, No. 1, (2007) 86–87.
35. J. L. Díaz-Barrero and E. Herman. “Limit of an Integral”. *Amer. Math. Monthly*, Vol. **114**, No. 8 (2007) 750–750.
36. M. Grau-Sánchez and J. L. Díaz-Barrero. “Integral Inequalities in the Complex Plane”. *Octagon Mathematical Magazine*, Vol. **15**, No. 1, (2007) 47–58.
37. J. Rubiό-Massegú and J. L. Díaz-Barrero. “On Power of the Zeros”. *Octagon Mathematical Magazine*, Vol. **15**, No. 1, (2007) 15–18.
38. J. L. Díaz-Barrero. “Problem B-1029 Square root of a sum of fourth powers of Pell numbers”. *The Fibonacci Quarterly*, Vol. **45**, No. 1, (2007) 86–86.
39. J. L. Díaz-Barrero, U. Abel and Duk Kim . “A recurrent Identity”. *Amer. Math. Monthly*, Vol. **114**, No. 4 (2007) 364–365.
40. J. L. Díaz-Barrero and J. J. Egozcue. “Inequalities for the Zeros of a Complex Polynomial”. *Octagon Mathematical Magazine*, Vol. **15**, No. 1, (2007) 106–109.
41. J. L. Díaz-Barrero and J. Gibergans-Báguena. “Some Applications of Rational Sums”. *Foaie Matematica*, Vol. **8**, No. 2, (2007) 1–7.
42. J. Rubiό-Massegú, J. L. Díaz-Barrero and P. Rubiό-Díaz. “Note on an Inequality of N. G. de Bruijn”. *RGMA Research Report Collection*, Vol. **10**, No. 1, Article 11, (2007) 1–5.
43. M. Bencze and J. L. Díaz-Barrero. “A generalization of Problem 3062 from Crux Mathematicorum”. *Octagon Mathematical Magazine*, Vol. **15**, No. 1, (2007) 182–185.
44. M. Bencze and J. L. Díaz-Barrero. “About a Convex Function”. *Octagon Mathematical Magazine*, Vol. **15**, No. 1, (2007) 216–217.

45. J. L. Díaz-Barrero and J. Gibergans-Báguena. “New Inequalities for the Triangle”. *Foaié Matemática*, Vol. **8**, No. 1, (2007) 1–4.
46. J. L. Díaz-Barrero and M. Grau-Sánchez “Problem B-1024 ‘A Fibonacci-Lucas Inequality’”. *The Fibonacci Quarterly*, Vol. **44**, No. 4, (2007) 371–371.
47. J. L. Díaz-Barrero and P. G. Popescu “Problem B-10025 An Inequality Involving Fibonacci Numbers and Binomial Coefficients”. *The Fibonacci Quarterly*, Vol. **44**, No. 4, (2007) 371–371.
48. J. L. Díaz-Barrero and E. G. Alptekin “A Binomial Type Identity”. *The Fibonacci Quarterly*, Vol. **44**, No. 4, (2007) 372–373.
49. J. L. Díaz-Barrero and J. Gibergans-Báguena. “Integral Inequalities Involving Random Variables”. *Octagon Mathematics Magazine*, Vol. **14**, No. 2, (2006) 583–586.
50. M. Bencze and J. L. Díaz-Barrero. “About Some New Inequalities in the Triangle”. *Octagon Mathematics Magazine*, Vol. **14**, No. 2, (2006) 596–600.
51. M. Grau-Sánchez and J. L. Díaz-Barrero. “On computational efficiency for multi-precision zero-finding methods”. *Applied Mathematics and Computation (New York)*, Vol. **181**, No.1 (2006) 402–412.
52. J. J. Egozcue, J. L. Díaz-Barrero and V.Pawlowsky-Glahn. “Hilbert Spaces of Probability Density Functions Based on Aitchison Geometry”. *Acta Mathematica Sinica*, Vol. **22**, No. 4 (2006) 1175–1182.
53. P. G. Popescu and J. L. Díaz-Barrero. “Certain Inequalities for Convex Functions”. *JIPAM: Journal of Inequalities in Applied Mathematics*, Vol. **7**, No. 2, Article 41, (2006) 1–5.
54. J. L. Díaz-Barrero. “Problem H-644 A Linear System Involving Fibonacci Numbers”. *The Fibonacci Quarterly*, Vol. **44**, No. 3, (2006) 283–283.
55. J. M. Patel, M. Grau-Sánchez and J. L. Díaz-Barrero. “Solution to Problem H-631 A Large Determinant”. *The Fibonacci Quarterly*, Vol. **44**, No. 3, (2006) 287–288.

56. J. L. Díaz-Barrero. “Certain patterns for posing problems”. *Gazeta Matematica. Seria A*, Vol. **103**, No. 1, (2006) 33–39.
57. J. L. Díaz-Barrero . “Problem 11225 A Limit of Integral Averages”. *Amer. Math. Monthly*, Vol. **113**, No. 5 (2006) 459–459.
58. J. Gibergans-Báguena, J. J. Egozcue and J. L. Díaz-Barrero. “Some Applications of an Inequality of Norman Levinson”. *RGMIA Research Report Collection*, Vol. **9**, No. 2, Article 6, (2006) 1–5.
59. S. Falcón Santana and J. L. Díaz-Barrero. “Some Properties of Sums Involving Pell Numbers”. *Missouri Journal of Mathematical Sciences*, Vol. **18**, No. 1, (2006) 33–40.
60. J. L. Díaz-Barrero and P. George Popescu. “Certain Inequalities for Means”. *Octagon Mathematics Magazine*, Vol. **14**, No. 1, (2006) 134–137.
61. J. L. Díaz-Barrero. “Problem B-1011 A New Identity Involving Fibonacci and Lucas Numbers”. *The Fibonacci Quarterly*, Vol. **44**, No. 1, (2006) 85–85.
62. J. Rubió-Massegú, J. L. Díaz-Barrero and P. Rubió-Díaz. “Zero and Coefficient Inequalities for Hyperbolic Polynomials”. *JIPAM: Journal of Inequalities in Applied Mathematics*, Vol. **7**, No. 1, Article 25, (2006) pp. 1–6.
63. Miquel Grau and J. L. Díaz-Barrero. “An improvement to Ostrowski root-finding method”. *Applied Mathematics and Computation (New York)*, Vol. **173**, No. 1, (2006) 450–456.
